The Learner's Dictionary of Today's

Indonesian-George Quinn 2020-07-16 What are the 24 words for 'you' in Indonesian? Why does Indonesian have four words for 'rice but no exact equivalent of 'farm'? How do you say 'Bang!' 'Ouch!' and 'Eh?'. What is the difference between dong and doang in colloquial Indonesian? How did the name of the Hindu god Indra give us the modern Indonesian word for motor vehicle? Whether you are a beginner or an advanced student of Indonesian, The Learner's Dictionary of Today's Indonesian is an essential tool to help you gain an authentic, up-to-date, and active command of the language. It provides a wholly new, very detailed snapshot of the core vocabulary of Indonesian. Among its features are: * thousand of illustrative sentences * an easy pronunciation guide * extensive cross-referencing * helpful tips on usage * topic lists which group the dictionary's words according to 42 'common usage' areas, including time, colours, daily activities, the home, sport, occupations, mass media, religion and business. A unique feature of the dictionary is the dozens

of boxes giving invaluable information on everyday usage, word origins and nuances of meaning. Rich in information on the cultural context in which words are used, it includes notes on the difficulties learners experience arising from differences in culture and history between English-speakers and Indonesian-speakers. The Learner's Dictionary of Today's Indonesian is the first comprehensive dictionary designed specifically to help you gain a practical command of the national language of one of the world's most populous nations.

Colloquial Jakartan Indonesian-James N. Sneddon 2006 This book aims to describe aspects of the Indonesian language as spoken by educated Jakartans in everyday interactions. This style of language is in many ways significantly different from the formal language of government and education, to the extent that it deserves separate consideration. While formal Indonesian has been the subject of a considerable amount of description very little

attention has been paid to informal styles of the language. The variety described here, Colloquial Jakartan Indonesian, is the prestige variety of colloquial Indonesian and is becoming the standard informal style. The description and texts in following chapters are drawn from recordings of natural speech of educated people living in Jakarta . While the book aims to inform those with a background in linguistics the needs of teachers and learners with little or no knowledge of linguistics is always borne in mind. The work thus does not consider theoretical linguistic issues nor use technical terms which would not be readily understood by most readers.

Sacrificial Limbs-Salih Can Aciksoz 2019-11-26

Sacrificial Limbs chronicles the everyday lives and political activism of disabled veterans of Turkey's Kurdish war, one of the most volatile conflicts in the Middle East. Through nuanced ethnographic portraits, Açıksöz examines how veterans' experiences of war and disability are closely linked to class, gender, and ultimately the embrace of ultranationalist right-wing politics. Bringing the reader into military hospitals, commemorations, political demonstrations, and veterans' everyday spaces of care, intimacy, and activism, Sacrificial Limbs provides a vivid analysis of the multiple and sometimes contradictory forces that fashion veterans' bodies, political subjectivities, and communities. It is essential reading for students and scholars interested in anthropology, masculinity, and disability.

The Future Opportunities and Challenges of

Business in Digital Era 4.0-Satria Bangsawan 2020-07-24 One of the main challenges faced by all entrepreneurs, is the need to growth. Growth is part of all organizations, it implies continuous growth of sales, purchases, number of employees, profit and thus the growth of the enterprise. Most innovations that are part of the organizations are derived from the internal organization. Industrial Revolution 4.0 provides both opportunities and challenges to all entrepreneurs to grow their business. The rapid development of technology and all digital aspects create opportunities of innovation in organizations. These proceedings provide details beyond what is possible to be included in an oral presentation and constitute a concise but timely medium for the dissemination of recent research results. It will be invaluable to professionals and academics in the field of business, entrepreneurship and economics to get an understanding of recent research developments.

QUANTUM MECHANICS-MAHESH C. JAIN

2007-08-14 This textbook is written as a basic introduction to Quantum Mechanics for use by the undergraduate students in physics, who are exposed to this subject for the first time. Providing a gentle introduction to the subject, it fills the gap between the available books which provide comprehensive coverage appropriate for postgraduate courses and the ones on Modern Physics which give a rather incomplete treatment of the subject leaving out many conceptual and mathematical details. The author sets out with Planck's quantum hypothesis and takes the student along through the new concepts and ideas, providing an easy-to-understand description of core quantum concepts and basic mathematical structures. The fundamental principles and the mathematical formalism introduced, are amply illustrated through a number of solved examples. Chapter-end exercises and review questions, generally designed as per the examination pattern, serve to reinforce the material learnt. Chapter-end summaries capture the key points discussed in the text. Beside the students of physics, the book

can also be used by students of chemistry and first-year students of all branches of engineering for gaining a basic understanding of quantum mechanics, otherwise considered a difficult subject.

Pro Android Python with SL4A-Paul Ferrill
2011-08-21 Pro Android Python with SL4A is for programmers and hobbyists who want to write apps for Android devices without having to learn Java first. Paul Ferrill leads you from installing the Scripting Layer for Android (SL4A) to writing small scripts, to more complicated and interesting projects, and finally to uploading and packaging your programs to an Android device. Android runs scripts in many scripting languages, but Python, Lua, and Beanshell are particularly popular. Most programmers know more than one programming language, so that they have the best tool for whatever task they want to accomplish. Pro Android Python with SL4A explores the world of Android scripting by introducing you to the most important open-

source programming languages that are available on Android-based hardware. Pro Android Python with SL4A starts by exploring the Android software development kit and then shows you how to set up an Eclipse-based Android development environment. You then approach the world of Android programming by using Beanshell, which runs on the Dalvik, and learning how to write small programs to administer an Android device. Next, discover how Lua, a lightweight language perfectly suited for scripting on smaller devices, can work with Android. Lua can be used for small but important tasks, like SMS encryption and synchronizing photos with flickr. Last, but certainly not least, you will discover the world of Python scripting for SL4A, and the power contained within the full range of Python modules that can combine with the Android SDK. You'll learn to write small location-aware apps to get you started, but by the end of this book, you'll find yourself writing fully GUI-fied applications running on the Android desktop! Pro Android Python with SL4A is rounded out with a chapter on distributing and

packaging scripts, a skill that you'll find very useful as you reach out to a wider audience with your programs.

Data Structures Using C-Reema Thareja

2014-07-11 This second edition of Data Structures Using C has been developed to provide a comprehensive and consistent coverage of both the abstract concepts of data structures as well as the implementation of these concepts using C language. It begins with a thorough overview of the concepts of C programming followed by introduction of different data structures and methods to analyse the complexity of different algorithms. It then connects these concepts and applies them to the study of various data structures such as arrays, strings, linked lists, stacks, queues, trees, heaps, and graphs. The book utilizes a systematic approach wherein the design of each of the data structures is followed by algorithms of different operations that can be performed on them, and the analysis of these algorithms in terms of their

Aesthetics-Steven M. Cahn 2020-06-22 A revised second edition of the bestselling anthology on the major figures and themes in aesthetics and philosophy of art, the ideal resource for a comprehensive introduction to the study of aesthetics. Aesthetics: A Comprehensive Anthology offers a well-rounded and thorough introduction to the evolution of modern thought on aesthetics. In a collection of over 60 readings, focused primarily on the Western tradition, this text includes works from key figures such as Plato, Hume, Kant, Nietzsche, Danto, and others. Broad in scope, this volume also contains contemporary works on the value of art,

frequently-discussed continental texts, modern perspectives on feminist philosophy of art, and essays by authors outside of the community of academic philosophy, thereby immersing readers in an inclusive and balanced survey of aesthetics. The new second edition has been updated with contemporary essays, expanding the volume's coverage to include the value of art, artistic worth and personal taste, questions of aesthetic experience, and contemporary debates on and new theories of art. This edition also incorporates new and more standard translations of Kant's Critique of the Power of Judgment and Schopenhauer's The World as Will and Representation, as well as texts by Rousseau, Hegel, DuBois, Alain Locke, Budd, Robinson, Saito, Eaton and Levinson. Presents a comprehensive selection of introductory readings on aesthetics and philosophy of art. Helps readers gain a deep historical understanding and clear perspective on contemporary questions in the field. Offers new essays specifically selected to promote inclusivity and to highlight contemporary discussions. Introduces new essays

Principles.

No One Tells You This-Glynnis MacNicol
2019-07-16 Featured in multiple “must-read” lists, *No One Tells You This* is “sharp, intimate...A funny, frank, and fearless memoir...and a refreshing view of the possibilities—and pitfalls—personal freedom can offer modern women” (Kirkus Reviews). If the story doesn’t end with marriage or a child, what then? This question plagued Glynnis MacNicol on the eve of her fortieth birthday. Despite a successful career as a writer, and an exciting life in New York City, Glynnis was constantly reminded she had neither of the things the world expected of a woman her age: a partner or a baby. She knew she was supposed to feel bad about this. After all, single women and those without children are often seen as objects of pity or indulgent spoiled creatures who think only of themselves. Glynnis refused to be cast into either of those roles, and yet the question remained: What now? There was no good blueprint for how

to be a woman alone in the world. It was time to create one. Over the course of her fortieth year, which this “beguiling” (The Washington Post) memoir chronicles, Glynnis embarks on a revealing journey of self-discovery that continually contradicts everything she’d been led to expect. Through the trials of family illness and turmoil, and the thrills of far-flung travel and adventures with men, young and old (and sometimes wearing cowboy hats), she wrestles with her biggest hopes and fears about love, death, sex, friendship, and loneliness. In doing so, she discovers that holding the power to determine her own fate requires a resilience and courage that no one talks about, and is more rewarding than anyone imagines. “Amid the raft of motherhood memoirs out this summer, it’s refreshing to read a book unapologetically dedicated to the fulfillment of single life” (Vogue). *No One Tells You This* is an “honest” (Huffington Post) reckoning with modern womanhood and “a perfect balance between edgy and poignant” (People)—an exhilarating journey that will resonate with anyone

determined to live by their own rules.

Philips 2007 Some things you just can't say, even to your parents. "Dad, did you ever want to be a mermaid?" Nope. Don't say it. Not if you're a boy. You gotta keep it inside. Maybe thirteen-year-old Todd Winslow is the best diver at summer camp.

If only diving could save him. Underwater is a much kinder world, a secret mermaid world that no one else can know about - not Dad, and definitely not Brad, the camp's numero uno bad boy. Todd tries to fit in, playing nice with flirty model-wannabe Sylvie and shunning nature-nerd Olivia - but you can only fool people for so long. Brad is watching every move, ready to expose all that's different about Todd. Then there's the doll thing. And Dad finds out. How will Todd survive now? Analytic Number Theory, Approximation Theory, and Special Functions-Gradimir V. Milovanović 2014-07-08 This book, in honor of Hari M. Srivastava, discusses essential developments in mathematical research in a variety of problems. It contains thirty-five

articles, written by eminent scientists from the international mathematical community, including both research and survey works. Subjects covered include analytic number theory, combinatorics, special sequences of numbers and polynomials, analytic inequalities and applications, approximation of functions and quadratures, orthogonality and special and complex functions. The mathematical results and open problems discussed in this book are presented in a simple and self-contained manner. The book contains an overview of old and new results, methods, and theories toward the solution of longstanding problems in a wide scientific field, as well as new results in rapidly progressing areas of research. The book will be useful for researchers and graduate students in the fields of mathematics, physics and other computational and applied sciences.

from early times to the present day, in over three hundred specially drawn full-colour maps with detailed accompanying text. In doing so, the Atlas brings fresh life to the fascinating and tangled history of this immense archipelago. Beginning with the geographical and ecological forces which have shaped the physical form of the archipelago, the Historical Atlas of Indonesia goes on to chart early human migration and the changing distribution of ethnic groups. It traces the kaleidoscopic pattern of states in early Indonesia and their gradual incorporation into the Netherlands Indies and eventually into the Republic of Indonesia.

The People of New France-Allan Greer
2017-06-22 This book surveys the social history of New France. For more than a century, until the British conquest of 1759-60, France held sway over a major portion of the North American continent. In this vast territory several unique colonial societies emerged, societies which in many respects mirrored ancien regime France,

but which also incorporated a major Aboriginal component. Whereas earlier works in this field presented pre-conquest Canada as completely white and Catholic, *The People of New France* looks closely at other members of society as well: black slaves, English captives and Christian Iroquois of the mission villages near Montreal. The artisans and soldiers, the merchants, nobles, and priests who congregated in the towns of Montreal and Quebec are the subject of one chapter. Another chapter examines the special situation of French regime women under a legal system that recognized wives as equal owners of all family property. The author extends his analysis to French settlements around the Great Lakes and down the Mississippi Valley, and to Acadia and Ile Royale. Greer's book, addressed to undergraduate students and general readers, provides a deeper understanding of how people lived their lives in these vanished Old-Regime societies.

Javanese - English Dictionary-Elinor Horne

2017-12-20 With close to one-hundred million speakers, Javanese is the largest language of the Austronesian family and one of the main regional languages of Indonesia. Javanese predominates in central and eastern Java as well as in a strip along the north coast of west Java (except around Jakarta). Migrants have carried Javanese to other parts of Indonesia (Sumatra, Kalimantan, Sulawesi) and outside the country to Malaysia, New Caledonia and Suriname. Javanese speakers migrated to Malaysia mainly from 1880 to 1930 relocating in the peninsula (parts of Perak, Selangor, and Kedah) though there are also some in the province of Sabah in the northern area of Borneo. Migrant workers arrived to New Caledonia, in the Pacific, between 1900 and 1938. In Suriname, a former Dutch colony in South America, plantation workers were brought from Java between 1890-1939. Javanese is a regional language of Indonesia, but not the official one. It is losing ground to Bahasa Indonesia, a form of Malay, used as a lingua franca and promoted as the national tongue of the country. The original dictionary on which this

volume is based was published in 1973 by Yale University. As stated in the introduction which follows, the Indonesian government issued a major orthography update after the Yale edition was published. It is now almost 50 years since the Yale edition was published and to my knowledge nothing has been standardized in the interim. The language has continued to evolve while at the same time being strongly influenced by the national Indonesian language and English. We have incorporated the new orthography changes into this edition and added an all-new English - Javanese index which was missing from the original. We have also added many business, computer, and internet terms which have now become common-place in the language. Many of these are loan-words from English, others are taken from Indonesian. It is our hope that this volume will become the standard for building a comprehensive Javanese -English foundation and since we now have and maintain this volume in digital format, corrections and additions can be made regularly.

Nazi Germany and the Jews, 1933-1945—Saul Friedlander 2009-10-06 *Nazi Germany and the Jews, 1933-1945* is an abridged edition of Saul Friedländer's definitive Pulitzer Prize-winning two-volume history of the Holocaust: *Nazi Germany and the Jews: The Years of Persecution, 1933-1939* and *The Years of Extermination: Nazi Germany and the Jews, 1939-1945*. The book's first part, dealing with the National Socialist campaign of oppression, restores the voices of Jews who were engulfed in an increasingly horrifying reality following the Nazi accession to power. Friedländer also provides the accounts of the persecutors themselves—and, perhaps most telling of all, the testimonies of ordinary German citizens who, in general, stood silent and unmoved by the increasing waves of segregation, humiliation, impoverishment, and violence. The second part covers the German extermination policies that resulted in the murder of six million

Archaeological Research in Estonia, 1865-2005-Valter Lang 2006 This volume is dedicated to the historiography and analysis of the present state of Estonian archaeology. Part I (articles by Valter Lang and Marge Konsa) provides a review of the general development of archaeological research in Estonia from the 19th century to the beginning of the 21st century, focusing on institutional changes and advances in theoretical thinking and approaches. Part II includes articles by Aivar Kriiska, V. Lang, Andres Tvauri, Heiki Valk, Ain Mõrtesalu, Anton

Põrn, Erki Russow and Arvi Haak on the previous research into the prehistoric and historical periods. In Part III, A. Tvauri and Mauri Kiudsoo discuss the formation and present situation of the archaeological and numismatic collections, and the establishment and development of archaeological heritage protection. Part IV discusses some more specific areas of research in Estonian archaeology, such as application of methods from the natural sciences in archaeology (A. Kriiska), settlement archaeology (V. Lang), underwater archaeology (Maili Roio), and connections between archaeology and oral tradition (H. Valk).
